Brands Hatch

Medical Team

Date: 07-05-16 Time: 08.15

Event: Blancpain GT Sprint

Extrication exercise:

Both rescue/extrication teams performed satisfactory simulated extrication of drivers from Blancpain series cars in boxes 5 and 13.

Garage 5 – Audi

Controlled extrication with cervical spine control, application of a cervical collar and Kendrick Extrication Device (KED) was performed. Safe controlled extrication (as for a conscious driver with possible spinal injury) was completed in 5 mins and 30 secs.

Garage 13 – Bentley

Rapid extrication with cervical spine control, application of collar and in line immobilisation was achieved in 2 minutes 10 secs.
