650S GT3

This is a graphic rendering based on the McLaren 650S GT3 car. Copyright 2014 ©
This PDF document has been provided by McLaren GT for the purpose of livery design. The file has a transparent background on the car's panels to allow liveries to be seen as realistically as possible. To use the PDF, open the file in a design studio programme such as Adobe Illustrator or Adobe Photoshop. When the file is opened; leave the car template layer, and this will allow you to design the liveries in the background.
