
From The Stewards of the Meeting Bulletin N° 03

To The Competitor's Representative
All Teams

The Stewards notify all Competitors of the following:

MOVEMENT OF CARS IN THE PADDOCK

In consideration of the high number of members of the public expected during this event, competing cars may not be moved around the paddock under their own power at any time. When cars need to be moved within the paddock, for example to the pre-grid, they must be pushed at all times.

Any breach of this requirement will be reported to the Stewards and penalties will be imposed.
